ANSHAD MUHAMMED M P

Full Stack Developer

Contact No: +971561172866 | Email: anshadmohdmp@gmail.com | Location: Dubai, UAE [in]

SUMMARY

Proactive **Computer Science Engineer** with hands-on experience in **Full Stack development** using the **MERN stack**. Skilled in building responsive user interfaces with **React.js** and implementing robust backend solutions using **Node.js, Express.js, and MongoDB**. Experienced in **RESTful API development, authentication, performance optimization, and version control using Git**. Adept at end-to-end project development, problem-solving, and delivering scalable solutions. Currently based in **Dubai, UAE,** open to new opportunities in **Full Stack Developer** roles.

EXPERIENCE

Full Stack Developer Intern

Direct Axis Solutions Pvt Ltd | Kozhikode, India
Apr 2025 - Oct 2025

- Developed modern, responsive web interfaces using React.js, HTML5, CSS3, and Bootstrap.
- Built reusable and scalable UI components using React Hooks and Context API.
- Converted UI/UX designs into interactive and user-friendly web pages with attention to detail.
- Integrated RESTful APIs using Axios to handle dynamic and real-time data efficiently.
- Managed application state effectively to ensure smooth navigation and consistent user experience.
- Improved application performance through lazy loading, code splitting, and optimized rendering.
- Ensured cross-browser compatibility and responsive behavior across multiple devices.
- Followed clean coding practices and modular architecture for better maintainability.
- Used Git and GitHub for version control, collaboration, and code reviews.
- Debugged and resolved issues using Chrome DevTools to improve application stability.
- Deployed and maintained applications on Vercel with regular updates and performance checks.

AI Devops Engineer Intern

Rooman Technologies Pvt Ltd | Bengaluru, India
Sept 2024 - Feb 2025

- Assist in deploying and managing AI/ML models in production environments.
- Help automate model training and deployment using CI/CD pipelines.
- Monitor AI applications for performance and basic issues.
- Support cloud infrastructure setup and maintenance for AI Systems.
- Work closely with data scientists to improve ML workflows and reliability.
- Maintain model versions and deployment records for easy tracking and rollback.
- Assist in setting up logging and monitoring tools for AI applications.
- Help troubleshoot and resolve deployment or runtime issues under guidance.

EDUCATION

BE in Computer Science & Engineering

Visvesvaraya Technological University | Karnataka, India
Nov 2021- July 2025

KEY SKILLS

- Strong understanding of modern frontend development using **React.js**.
- Comfortable building **responsive layouts** that work well on all screen sizes.
- Experience creating **reusable UI components** for clean and scalable code.
- Good knowledge of **HTML5, CSS3, Bootstrap**, and modern styling practices.
- Hands-on experience integrating **REST APIs** and handling dynamic data.
- Familiar with **state management** using React Hooks and Context API.
- Able to **debug and fix issues** efficiently using browser developer tools.
- Experience with **Git and GitHub** for version control and team collaboration.
- Focused on **performance optimization** and smooth user experience.
- Comfortable deploying applications and managing updates on **Vercel**.
- Quick learner with the ability to adapt to **new tools and technologies**.

SOFT SKILLS

- Clear communication and ability to explain ideas effectively
- Strong problem-solving approach and logical thinking
- Quick learner with the ability to adapt to new technologies
- Good time management and commitment to meeting deadlines
- Comfortable working both independently and in a team environment
